aboutparachute®

THE COOL, THE CLASSIC, THE ORIGINAL. Parachute® landed in 1999, but it wasn't till 2001 that it started operating as a full-scale type foundry. By then several designers had joined in to form a select group of open-minded, free-spirited individuals/friends. Graphic designers, illustrators, educators, typographers, with fresh ideas and a strong desire to design sophisticated typefaces which reflect current cultures and trends. Parachute® is based in Athens and is the major font supplier to most publishing houses and advertising agencies in Greece. It has built a strong network of valuable relationships with customers in Europe, United States, Canada and Australia, by providing custom font services and corporate font licensing. Its clientelle includes multinational companies such as **Ikea, Vodafone, Nestle and Unilever**, advertising agencies such as **DDB, Leo Burnett, McCann Erickson, BBDO, Saatchi & Saatchi, Lowe, TBWA, Spot Thompson**, publications such as **National Geographic, Playboy, FHM, Elle, Vogue, Harper's Bazaar, Marie Claire, PC Magazine, Lucky, PC World, Votre Beauté** and many, many others. In the last 5 years Parachute's designers (a.k.a. Parachuters) have won three major typeface design awards, while their work has been featured and extensively presented in design-oriented magazines. The year 2003 marked the beginning of a new era for Parachute® with the release of a major 200-page catalog, which contained Greek and Latin typeface specimens. This catalog/book included several classic revivals of historical importance, as well as many original font designs. Since then an emphasis was placed on multilingual support and OpenType® technology. In the spring of 2004 Parachute's first opentype "Pro" font was released. "**Archive Pro**" an award winning typeface with multilingual support (over 1.350 glyphs/font), kerning for all European languages as well as advanced typographic features, was first presented at the "**Adobe Creative Days 2004**" forum, which was held in Athens, Greece. From then on, all Parachute® fonts have been redesigned to offer multilingual support, which includes major scripts such as Latin, Greek and Cyrillic.

opentype® and parachute® fonts

OpenType® is a new font format developed jointly by Adobe and Microsoft. This technology is becoming the new world standard for font development. There are three major advantages over older formats such as TrueType and Postscript: **1.** Cross-platform compatibility (a single file for both PC and Mac offering absolute compatibility between the two platforms) **2.** Multilingual support (multiple language character sets can be accessed from the same font). This is particularly useful to advertising agencies, publishing houses, multinational corporations and every other company small or large with accounts and products with an international flair. Most Parachute fonts come complete with a full range of characters to support all European languages **3.** Advanced layout features (an exciting function which provides access to advanced typographic features such as small caps, ligatures, oldstyle figures, swashes, etc). They enable the discriminating designer to set text professionally and add a touch of class to the page. Parachute openType fonts with advanced layout features and multilingual support are distinguished from the other "simple" openType fonts by the word "**Pro**" which is part of the font name. The advanced layout features cannot be accessed unless they are supported by your programs. Currently (early 2007), only InDesignCS, IllustratorCS, PhotoshopCS and QuarkXpress7 support these advanced features.

THE DESIGN OF PARACHUTE FONTS. Parachute fonts are designed by individuals who are familiar with Latin, Greek and Cyrillic. These are designers who have studied the particulars of each and every script in order to provide sophisticated, well-balanced, properly kerned and professionally designed typefaces in all different languages. Parachute online fonts are offered exclusively in OpenType format and they are released only after they have been thoroughly tested and reviewed.

How to type Multilingual text

It's never been easier to type or edit multilingual text. All you need is: **1.** a program which supports opentype fonts (see below), **2.** switch your keyboard to the languages you are interested in and **3.** use opentype fonts which support the specific languages (Parachute fonts support all European languages). Please note that if you only need to edit an existing multilingual text i.e. copy/paste or change fonts, you don't have to add or switch keyboards.

HOW TO SWITCH KEYBOARDS. First you add the new languages to the system. The steps are similar on both platforms **1.** On the PC (Windows XP) you go to the <control panel> section and choose <regional and languages options>. Select <languages> and follow the instructions to add the new languages (for earlier versions please refer to their manuals). Once added, you can switch between keyboards through the language bar that appears on the desktop or through a key sequence **2.** On the Mac (MacOsX) you go to <system preferences> and select <international>. Then you choose <input menu> and checkmark the languages you want to add. Once added, you can switch between keyboards through the language palette which appears on the desktop's menu bar or through a key sequence. Please visit Parachute's web site or click on the following link  to go directly to the <international keyboard layouts> support page. View them on screen or download for your reference.

ABOUT GREEK POLYTONIC. Add Greek Polytonic to the system by following above instructions. Once added, you need to know the key combinations for typing your text. Please visit Parachute's web site or click on the following link  to go directly to the <how to type Greek Polytonic support page>. View the typing instructions on screen or download for your reference.

MAJOR PROGRAMS THAT SUPPORT OPENTYPE. Currently (early 2007), the programs known to support OpenType are: InDesignCS, IllustratorCS, PhotoshopCS, Microsoft Office, CorelDraw and QuarkXpress 7.

SYSTEM REQUIREMENTS. Windows 2000 or later, MacOsX or later.

fontcredits

BEAU SANS PRO. “The design of Beau Sans was inspired by Bernhard Gothic which is considered one of the first contemporary American sans serifs and was designed by Lucian Bernhard in the late 1920’s. I came across this font while attempting to reduce the design elements of a text typeface, by introducing Bauhaus-like minimal forms to the characters. The first version was completed back in 2002 and introduced one year later in our 3rd catalog, under the name *PF Traffic*. Some time later I decided to make a few improvements but I was so carried away that the new typeface which emerged needed urgently a new name. *Beau Sans Pro* is a modern sans serif family of 16 fonts which includes true-italics. Just like all other Parachute fonts, it covers a broad range of languages by incorporating 3 major scripts i.e. Latin, Greek and Cyrillic in one font. Furthermore, every font in this family has been completed with **270 copyright-free symbols**, some of which have been proposed by several international organizations for packaging, public areas, environment, transportation, computers, fabric care and urban life. This typeface is totally recommended for titles and/or body text when you want to give a distinct and contemporary identity to a product or service.” —Panos Vassiliou

the designer

PANOS VASSILIOU. Panos Vassiliou has conducted numerous seminars for leading Canadian companies and institutions such as Bank of Nova Scotia, Royal Bank and Sony Canada. He has organized and promoted several educational and cultural conferences. Two years after his graduation from the University of Toronto/Canada, where he studied Applied Science and Engineering, he pursued a teaching career at George Brown College/Toronto, first in the Information Systems Department and later in the Media & Graphic Arts Department. He has been Creative Director for the Canadian design firm AdHaus, former Publisher of the monthly magazine DNA (Greece) and Secretary-General for the Hellenic Canadian Congress (Ontario, Canada). He has been designing typefaces since 1993, including commercial fonts as well as commissions from **Vodafone, Nestlé, Ikea** and **National Geographic**. He is regularly invited as a guest speaker to conferences and seminars, to speak on typography and related topics. After moving to Greece, he started Parachute in 1999 setting the base for a typeface library that reflected the works of some of the best contemporary Greek designers, as well as creatives around the world obsessed with type. Some of his favorite designs include **Agora Pro, Square Sans Pro, Fuel Pro, Champion Script Pro**. He received a design award for his typeface **Archive** at the EBFE AWARDS 2004. As early as spring 2004 he released **Archive Pro**, his first opentype font with special typographic features and multilingual support for all European languages including Greek and Cyrillic.

supported OT features

1. OLDSCHOOL FIGURES: Changes selected figures from the default lining to oldstyle i.e. numbers of varying height. These are appropriate for use with lowercase text. They come in two different styles: tabular and proportional. Tabular figures have equal widths (useful for tables, so that numbers line up from one line to the next) whereas proportional have varying widths and are basically used within a sentence.

2|7|6|0 ▶ 2|7|6|o
2760 ▶ 2760

2. LINING FIGURES: This feature changes selected figures from oldstyle to the default lining form. Lining figures are numbers which fit better with all-capital text and they are of the same height as capitals or a bit smaller. They also come in two different styles: tabular and proportional.

2760 ▶ 2760
2|7|6|o ▶ 2|7|6|0

3. PROPORTIONAL FIGURES: Replaces selected figure glyphs which are set on tabular widths (lining or oldstyle), with corresponding glyphs set on proportional widths (lining or oldstyle).

2|7|6|0 ▶ 2760
2|7|6|o ▶ 2760

4. TABULAR FIGURES: Replaces selected figure glyphs which are set on proportional widths (lining or oldstyle), with corresponding glyphs set on tabular widths (lining or oldstyle).

2760 ▶ 2|7|6|0
2760 ▶ 2|7|6|o

5. SMALL CAPS: This feature formats lowercase text as small caps. These are not computer generated scaled-down versions of capitals, but rather glyphs which have been designed to match the weight and proportions of the rest of the family characters. They are often used in combination with oldstyle figures, for acronyms and abbreviations and stylistically at the beginning of a paragraph (**this feature includes Latin and Greek small caps**).

typography ▶ TYPOGRAPHY
τυπογραφία ▶ ΤΥΠΟΓΡΑΦÍΑ

supported OT features

6. SMALL CAPS FROM CAPITALS: Replaces capital glyphs with small caps (**this feature includes Latin and Greek small caps.**)

TYPOGRAPHY ▶ TYPOGRAPHY

ΤΥΠΟΓΡΑΦΙΑ ▶ ΤΥΠΟΓΡΑΦΙΑ

7. LIGATURES: Replaces a sequence of glyphs with a single glyph, creating a professional-looking text with no peculiar collisions among letters. This feature covers the standard f-ligatures, as well as few other ones used in normal conditions.

ffj ▶ ffj fjord ▶ fjord after ▶ after
 affluent ▶ affluent bullfighter ▶ bullfighter

8. DISCRETIONARY LIGATURES: Replaces a sequence of glyphs with a single glyph. It differs from the previous feature in the fact that it activates special (non-standard) ligatures for **Latin and Greek**.

c/o George Lewis ▶ % George Lewis (care of)
 Y/O Νίκου Πετρίδη ▶ % Νίκου Πετρίδη (υπόψιν)
 α/α Νίκος Πετρίδης ▶ % Νίκος Πετρίδης (αντ' αυτού)

9. SUPERIORS: Replaces lining and oldstyle figures with superior figures and lowercase letters with superior letters. These superior glyphs are not computer generated scaled-down versions but are rather redesigned to match the weight of the regular glyphs. Superior figures are used mainly for footnotes and superior letters for abbreviated titles (**this feature includes Latin as well as Greek superior lowercase and capital letters.**)

footnote³ ▶ footnote³ h²=x²+y² ▶ h²=x²+y²
 Dr ▶ D^r Mme ▶ M^me Δρ ▶ Δ^r
 DR ▶ D^R MME ▶ M^ME ΔP ▶ Δ^P

10. SCIENTIFIC INFERIORS: Replaces lining and oldstyle figures with inferior figures. They have been designed to match the weight of the regular glyphs and sit lower than the standard baseline. Used primarily for mathematical and chemical notations.

H₂O ▶ H₂O

supportedOTfeatures

11. NUMERATORS: Substitutes selected numbers (and basic punctuation) which precede a slash with numerator glyphs and replaces the typographic slash with the fraction slash.

253/ ► 253/ 85,6/ ► 85,6/

12. DENOMINATORS: Substitutes selected numbers (and basic punctuation) which follow a slash with denominator glyphs and replaces the typographic slash with the fraction slash.

/253 ► /253 /85,6 ► /85,6

13. FRACTIONS: Figures separated by slash, are replaced with diagonal fractions.

$$\frac{5}{8} \rightarrow \frac{5}{8} \qquad \frac{3}{4} \rightarrow \frac{3}{4}$$

14. ORDINALS: Contextually replaces default alphabetic glyphs which follow numbers with superscripted glyphs and the sequence 'No' with the numero character (No). **This feature includes Latin as well as Greek lowercase and capital ordinals.**

1st ► 1st 2nd ► 2nd 28th ► 28th No ► №
1er ► 1^{er} 2ème ► 2^{ème} 2ND ► 2ND
1ος ► 1^{ος} 2η ► 2^η 53ου ► 53^{ου} 30Σ ► 30^Σ

15. ORNAMENTS/VARIOUS SYMBOLS: This feature may replace the bullet or other characters with any of the available ornaments/symbols. All of them are best accessed from the program's 'Glyphs Palette' when available. There is a total of 270 ornaments/symbols included for packaging, public areas, environment, transportation, computers, fabric care, urban life. (full list on page 11)

16. CASE-SENSITIVE FORMS: Shifts punctuation marks up to work better with capital letters and lining figures since by default they sit lower to properly mix with lowercase characters.

[(HELLO)] ▶ [(HELLO)] «ПРИВЕТ» ▶ «ПРИВЕТ»

supported OT features

17. CAPITAL SPACING: Globally adjusts inter-glyph spacing for all capitals. This feature can be applied (opens up the space in-between them) when text is set all-capital in order to make it more legible.

PARACHUTE ▶ PARACHUTE

18. SLASHED ZERO: Replaces the regular form of zero with an alternate form which includes a slash through the counter. This is particularly useful when capitals are mixed with numbers in which case capital O may be difficult to distinguish from zero 0.

0 ▶ 0 20 OBJECTS ▶ 20 OBJECTS

19. ACCESS ALL ALTERNATES: All variations of a selected character are accessible with this feature from the glyph palette of all programs that support OT features.

2 ▶ 222²2²2 € ▶ €€€

Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. During the few decades that television became widespread, some cultural codes were transmitted, even to nations where electronic means of communication were explicitly forbidden. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products and services worldwide, making people consider them common, if not to respect them consistently. Moreover, television dramatically increased international communication. With 24-hours news broadcasts it has become increasingly difficult to disclose information from the public. Likewise, the Information Technology Marketplace will boost local and global cultures, as people coming from smaller villages and greater capitals will seek entertainment, commerce, education, health and other human activities together, regardless of their nationality. Could these forces equate the differences among us, resulting in an international civilization? Regardless of whether the nations con-

Ασχέτως αν τα έθνη παραμείνουν περιορισμένα από εδαφική άποψη ή γίνουν πιο διασκορπισμένα, η πλεκτρονική γειτνίαση θα ενισχύσει τους πολιτιστικούς δεσμούς ανάμεσά τους. Στις λίγες δεκαετίες που η τηλεόραση διασκορπίστηκε παντού, διέδωσε ορισμένους πολιτιστικούς κανόνες, ακόμα και σε έθνη όπου τα πλεκτρονικά μέσα ενημέρωσης απαγορεύονταν κατηγορηματικά. Η κατάρρευση της πρώην Σοβιετικής Ένωσης μπορεί να επηρεάστηκε από αυτό τον παράγοντα περισσότερο απ' όσο νομίζουμε. Η τηλεόραση παρουσίασε ορισμένα προϊόντα και υπηρεσίες σε όλο τον κόσμο, δίνοντας τη δυνατότητα στους ανθρώπους να τα θεωρούν κοινά, αν όχι να τα σέβονται σταθερά. Επίσης, το μέσο αύξησε δραματικά την παγκόσμια επικοινωνία. Με τις επί εικοσιτετράώρου βάσεως ειδήσεις γενικά ήταν όλο και πιο αδύνατο να αποκρυφτούν σημαντικά γεγονότα από τον υπόλοιπο πλανήτη. Παρομοίως, η Πληροφοριακή Αγορά θα ασκήσει μια συνδυαστική και εξισωτική δύναμη στους τοπικούς και παγκόσμιους πολιτισμούς, καθώς οι άνθρωποι από τα μικρότερα χωριά και τις μεγαλύτερες μητροπόλεις θα επιδιώκουν αναψυχή, εμπόριο, εκπαίδευση, υγεία και άλλες ανθρώπινες δραστηριότητες μαζί, άσχετα με την εθνικότητά τους. Στις λίγες δεκαετί-

cyrillicsamples

What follows is a set of Cyrillic samples for PF Beau Sans Pro. Greek and Latin script samples are covered in other sections of this specimen manual. For products with an international flair, we have introduced a special packaging section (includes the special country code symbols). For more samples, please visit our site at www.parachute.gr and try the FonTestDriver™, our advanced evaluation font tool which supports simultaneously Latin, Greek and Cyrillic.

LIGHT 10/12

Независимо от того, продолжают ли нации оставаться изолированными, или они становятся более распределенными, электронная смежность укрепит культурную связь между ними. В течение нескольких десятилетий, что телевидение стало широко распространенным, некоторые культурные кодексы были переданы, даже к нациям, где электронные средства коммуникации строго запрещались. Сей факт, вероятно, повлиял на распад Советского Союза в большей степени, чем мы можем думать возможные. С радиопередачами новостей 24 часа в день стало более трудно скрыть информацию от публики. Аналогично, Информационный Рынок повысит местные и глобальные культуры как люди, приезжающие от меньших деревень, и большие капиталы будут искать развлечения, торговлю, образование, здоровье и другие действия, независимо от их национальности. Эти силы могли приравнять различия среди нас, приводя к международной цивилизации? В течение нескольких десятилетий, что телевидение стало широко распространенным, некоторые культурные кодексы были пере-

TYPEFACES. The typeface used in this specimen manual for body text, headers, footers and page numbering is PF Square Sans Pro. PF Bulletin Sans Pro is used for page titles.

PRODUCTION. This manual was produced using InDesign®CS2, Illustrator®CS2 and Photoshop®CS2 from Adobe® and Word®2004 from Microsoft®. Multilingual sample text was originally set in Microsoft Word for Windows. Final document was created in MacOsX with InDesign®CS2.

TEXT. The main text used for samples, has been adapted and translated by permission from the book "What will be" by the late MIT Professor and visionary Michael Dertouzos, published in 1997 by HarperEdge. Greek version published in 1998 by Livani Publishing Organization. Additional text and samples were derived from the 200-page catalog/book "IDEA-Trendsetting Typography vol. 1" released by Parachute in the year 2003.
